

THE ALL HAZARDS QUARTERLY

2nd Quarter 2016

ARE YOU READY FOR

HURRICANE SEASON?

Preparation is the best protection against the damages of a hurricane. Being prepared can greatly reduce stress and anxiety if a hurricane heads for Southwest Florida. Running from June 1st through November 30, hurricane season is upon us. Are you ready?

WATCH vs WARNING

Hurricane events are categorized into Watches and Warnings. A *Hurricane Watch* is when conditions are possible for a hurricane to occur within the next 48 hours. A *Hurricane Warning* is when conditions are expected within 36 hours. After a Warning is issued, begin following weather updates and emergency instructions from local emergency services on television and radio. This is the time to plan how you will communicate with family members in the event of a power loss. Remember that text messaging may be the only way to communicate during a disaster.

A MESSAGE FROM THE CHIEF

James M. Cunningham
James M. Cunningham
 Fire Chief

Do you know where the nation's new lightning capital is? Right here in our own fire district! Orangetree to be exact.

This spot ranks #1 in the United States, #14 in North America and #122 globally for lightning activity. The Orangetree area receives more lightning due to the sea breeze collisions during the warm and humid summer months.

For years, the Tampa Bay area was known as the unofficial Lightning Capital of the United States. In February of this year, researchers at the University of Alabama-Huntsville, aided by new satellite technology, determined the new hotspot had moved south from Tampa to Orangetree.

According to the National Weather Service (NOAA), lightning strikes kill an average of 49 people each year, and hundreds more are severely injured. ***Remember that if you hear thunder, lightning is close enough to strike you.***

Lightning strikes substantially increase our response for brush fires, tree fires, structure fires and activations of fire alarms....just a few of the All Hazards that we deal with on a daily basis.

To learn how to stay safe during our summer afternoon thunderstorms, visit the NOAA website on lightning.
<http://www.lightningsafety.noaa.gov/>

ARE YOU READY FOR HURRICANE SEASON?

(Continued from page 01...)

BEFORE THE STORM

Preparation is the key to protecting your home, your family and your pets from an approaching storm. Before a storm approaches, put together a basic disaster supply kit to include:

- any needed medication;
- water (1 gallon per person, per day for 3 days);
- 3-day supply of non-perishable food;
- battery powered or hand crank radio;
- flashlight with extra batteries;
- first-aid kit;
- whistle to signal for help;
- moist towelettes;
- garbage bags and plastic ties;
- wrench or pliers to turn off utilities;
- manual can opener;
- local maps; and
- cell phone with chargers.

Other storm preparations include:

- Be sure to also include food and supplies for your pets or make arrangements for them to go somewhere else safe during the event.
- Consider purchasing flood insurance, if you don't already have coverage. If your roof is damaged and rain enters your home, damage caused by the rain is not normally covered under your homeowners insurance.
- Take pictures or video of the interior and exterior of your home. In the event of damage, you will be better prepared for requests from your insurance company.
- Trim or remove damaged trees and tree limbs.
- Secure loose gutters and clear downspouts to prevent water damage.
- Secure and reinforce the roof, windows, and doors, including garage door.
- Buy a portable generator or install a generator for use during power outages. Remember to keep generators as well as alternate power/heat sources outside.
- Keep your car in good working condition with a full gas tank. It is also a good idea to keep first aid supplies and a change of clothes in your car.
- Have cash on hand, specifically small bills. Remember that banks and ATMs may be closed if electricity is lost.

AFTER THE HURRICANE

Recovery from any kind of disaster is a process that takes time. The primary issue is SAFETY. Remember the following after the hurricane has passed:

- Listen for updates and instructions for your community.
- Check-in with family members and friends using social media and/or text messaging.
- If you have left your home, return to your home only after you have been told by authorities it is safe to do so.
- Watch out for debris and downed power lines, and always assume a downed power line is live.
- Do not drive or walk through flood waters.
- Take pictures of damage to your home and neighborhood.

RESOURCES***Community Emergency Response Teams (CERT)***

To get prepared, consider taking a Community Emergency Response Team (CERT) class. This is a free, 8-week class, 3 hours per evening, one night per week. North Collier Fire Rescue provides CERT training which instructs you on how to care for yourself, your family and your community in times of disaster. Classes are offered two to three times per year.

For more information about CERT, contact North Collier Fire Control and Rescue District at (239) 597-3222.

Red Cross

The RED CROSS has a free mobile phone app that will provide real-time severe weather and emergency alerts.

To download the app for free:

Text GETEMERGENCY to 90999
or search "Red Cross Emergency" in the Apple APP Store or Google Play Store.

Collier County Emergency Operations

If you need to access emergency services following a disaster, the Collier County Emergency Operations Center (EOC) can provide helpful information including contact information for police, hospitals, utilities, fire and other governmental agencies.

Collier County Emergency Operations Center
Emergency Hotline: (239) 252-8444
Website: <http://bit.ly/collieremergency>

CERT CLASS GRADUATES

The newest CERT class graduated on July 5, 2016 at a ceremony held at North Collier Fire Rescue Station 45.

Nineteen residents from numerous communities within the district participated in their final drill and graduation on Tuesday, July 5th. The participants have completed the eight-week Community Emergency Response Team (CERT) course focused on disaster preparedness education for hazards that may impact the area, training them in basic disaster response skills.

Using the training learned in the classroom and during training exercises and mock drills, CERT members can assist others in their neighborhood or workplace following an event when professional responders are not immediately available to help. In Florida, this is especially helpful after hurricanes.

The eight week course included instruction on light search and rescue, first aid and triage, disaster psychology, disaster and community response, fire suppression and practice drills.

The District has more than 20 CERT teams from various communities and organizations located within the district including Palm River, Bay Colony, Vineyards, Wilshire Lakes, Tarpon Cove, Naples Park, Pelican Bay, Pine Ridge, The Ritz-Carlton and Arthrex. More than 1,200 participants have graduated from the District's CERT program.

If your community or organization would like to establish its own CERT Team, please contact Public Information Officer Jerry Sanford at jsanford@northcollierfire.com.

SCHOOLS BACK IN SESSION AUGUST 15TH !!

Collier County Public Schools are back in session August 15th. Please remember to slow down for our children.

North Collier Fire personnel will be present at school crossings within our District as a visible reminder to us all.

MERGER BENEFITS SURPASS ANTICIPATED PROJECTIONS

At the general election in November of 2014, the voters of the Big Corkscrew Island Fire District and the North Naples Fire District overwhelmingly voted to merge the two districts to create the North Collier Fire Control and Rescue District. The vote was taken after the two districts, in accordance with the statutory merger process, held numerous public meetings to discuss the merger plan, created to illustrate how the merger would be accomplished and detail the projected operational efficiencies and financial savings which would occur. Nearly a year and a half into the merger, we are excited to share with you how far we have surpassed our projected plans for an efficient and effective merger.

LOWER MILLAGE RATES

- Lowered millage rate from 3.50 to 3.45 in the Big Corkscrew Service Delivery Area, a tax decrease of \$59,000
- Lowered from 1.00 to .95 in the North Naples Service Delivery Area equaling a tax decrease of \$1.3 Million

IMPROVED FINANCES

- Maintained stable cash reserves - at the end of merger year one (September 2015), cash reserves were \$433K MORE in Big Corkscrew Service Delivery Area and \$956K MORE in North Naples Service Delivery Area than projected in the Merger Plan.
- Reduced costs – more than \$630K less than in the merger plan, even with the additional firefighters hired
- Savings from State Premium Tax Funds from Big Corkscrew area not yet received, but anticipated to result in at least an additional \$120K savings per year

IMPROVED SERVICE

- Standardized resources used to respond to calls throughout the new District
- Increased firefighter personnel by 20%: the District added 27 additional firefighters, or 9 per each of the three shifts, which means that 9 more firefighters are available to respond each and every day.
- Now providing advanced life support services throughout the entire geographical boundaries of the district (not just the North Naples Service Delivery Area)

IMPROVED RESOURCES

- Decreased from two unions to one
- Negotiated one collective bargaining agreement so all employees receive same pay and benefits, regardless of which service delivery area was their originating employer (harmonization costs funded with property tax revenue received in Big Corkscrew Island Service Delivery Area overages)
- Combined and unified financial and administrative policies, software systems, financial systems and processes, and technological systems
- Equalized response District-wide
- More firefighters available each day on duty to respond to calls – 20% increase in staffing level
- The District has NOT used the financial reserves of one service delivery area to fund a tax decrease or stabilize reserves in the other service delivery area.
- Separate budgets and cash reserves have been maintained

How did we accomplish all of this? Property values increased more than projected and cost savings were greater than anticipated with the elimination of two chief officer positions sooner than planned.

The Board of Fire Commissioners and staff of North Collier Fire Control and Rescue District have worked diligently to this point to ensure the success of this merger. You can be assured that we will continue to work just as hard in the future for continued success. **Do you have any questions regarding the merger? We invite you to reach out and contact Chief Becky Bronsdon at (239) 597-3222 for answers.**

EMERGENCY RESPONSE STATISTICS

It is interesting to note how the increase in call volume correlates directly with the influx of people moving through our District during the day. Very intuitive, the data reflects that with more population comes more incidents including vehicle accidents and medical emergencies. The District's population grows each day as workers commute into and out of our District and visitors come and go for the dining, shopping and lodging opportunities. ([Click here or on the chart to view larger version.](#))

Call volume for January through June 2016 is tracking in line with our projections of a 10-15% total increase in call volume for 2016. One factor contributing to the increase in Fire/Rescue calls for 2016 are the numerous brush fire responses this brush fire season. ([Click here or on the chart to view larger version.](#))

EMERGENCY RESPONSE

June 17, 2016 - TRT Team (Technical Rescue Team) in action executing a high angle rescue of a construction worker who had fallen from a higher roof to a lower roof and then into a parapet at the Artis of Naples construction project.

CAR FLIP

May 16, 2016 - NCFR on scene working with Collier County Sheriff's Office (CCSO) to pull a man out of a vehicle that flipped over and landed in a canal at the intersection of Pine Ridge Road and Airport-Pulling Road. The passenger was transported to the hospital. North Collier Fire Dive Team searched the water for other possible victims, but none were found.

VEHICLE FIRE

June 4, 2016 - NCFR on scene with a vehicle fire on I-75 Exit Ramp 111 southbound.

HYDRANT MAIN BREAK

May 13, 2016 - NCFR responds to a hydrant main break at the intersection of Vanderbilt Beach Rd. and Oakes Blvd.

BRUSH FIRE

May 8, 2016 - Brush Fire on 2nd St SE

VEHICLE ACCIDENTS

Did you know that 40% of all vehicular accidents in Collier County occur in the North Collier Fire District? This is according to data compiled by the Collier County Sheriff's Office.

May 24, 2016 - Vehicle Crash Tamiami Trail & 107th Ave North with three confirmed injuries and two trauma alerts

May 6, 2016 - NCFR on scene at Pine Ridge Road and Whippoorwill Lane for a three-vehicle accident. Three individuals were transported to hospital with injuries.

April 30, 2016 - Two car crash on Vanderbilt Beach Rd. and US 41. Vehicle burst into flames. No injuries.

COMMUNITY OUTREACH

April 25, 2016 - Estates Elementary Teaching Fire Safety - EDITH (Exit Drill in the Home) It is very important for families to get together and have a PLAN to exit their home in case of an emergency. NCFR firefighters helping promote this cause at Estates Elementary.

May 21, 2016 - Celebrating Armed Forces Day with veterans from Aston Gardens. Thank you for your service. A special thanks to Rescue 45: LT Cardwell, EN Adams, FF Valdivia, FF Fite

May 31, 2016 - Thank you "Chief Michael", our Fire Chief for a Day from the Village School. Also many thanks to his family for sharing the day, Public Education Officer Pat Browne, Volunteer Colton Rose, Station 46, and Station 44 for hosting our pizza lunch!!

May 17, 2016 - Veterans Memorial Elementary School visits Station 45

COMMUNITY OUTREACH

April 2, 2016 - Palmetto Ridge HS JROTC Cadets' Car Wash. NCFR Firefighters helping with the cause.

April 18, 2016 - Waves of Wonder Montessori School Fire Truck Visit. North Collier Fire Engine 42 rolled in and showed the students their truck and demonstrated use of a fire hose.

May 5, 2016 - "Bike From School Day" at Corkscrew Elementary where Collier County Sheriff's Office was on hand to give safety checks for Corkscrew Elementary students' bikes.

LT. JEFFREY MORSE SELECTED AS FIREFIGHTER OF THE YEAR

Naples, Fla - The North Collier Fire Control and Rescue District proudly announces that Lt. Jeffrey Morse has been selected by the Florida State Elks Association as the inaugural award winner for Firefighter of the Year.

Morse was recognized at a May 28, 2016 award presentation in Orlando at Disney's Coronado Springs Resort.

Morse began his career with North Collier Fire Control and Rescue District in 2001 (then North Naples Fire Control and Rescue District). Prior to this, Morse worked in the fire service for 10 years in Rochester, MA before making the move to Florida. In Florida,

Morse served both the Oviedo and Estero fire districts. Since arriving to North Collier Fire Rescue, Morse's leadership skills have propelled his upward movement through the ranks to his current position as Lieutenant. He also serves on the District's Dive and Hazmat Teams and is a State of Florida Certified Paramedic.

An integral part in the District's communications division, Jeff serves as liaison between the District and the Collier County Sheriff's Office Dispatch Office ensuring that the communications between the two organizations allow for the most rapid and efficient response possible.

Beyond his dedicated service to the District, Jeff is just as dedicated to his community and, more specifically, to fallen first responders. In 2007, a group of North Naples firefighters wanted to honor nine members of the Charleston, South Carolina Fire Department who perished in the line of duty on June 18, 2007. Their desire to help the families of these brave professionals resulted in the creation of the Brotherhood Ride of which Jeff is president.

The Brotherhood Ride consists of firefighters, law enforcement officers and emergency medical responders who ride bicycles throughout Florida and other states, up to 600 miles in a week's time, to bring attention to those who bravely died and to provide emotional and financial support to their families. To date, The Brotherhood Ride has raised and donated more than \$359,000 for these families.

Learn more at <http://www.northcollierfire.com/community/brotherhood-ride/>

PERSONNEL AWARDS RECOGNITION

LIFE SAVING AWARDS

At the May 12, 2016 Board of Fire Commissioners' Meeting, the District recognized the following personnel with the Life Saving Award given for the successful resuscitation of a patient who is later admitted to the hospital and then released.

- Firefighter Alex Wagoner
- Lt. John Vosburgh
- Inspector David Jones
- Firefighter Felipe Lamay
- Firefighter Kenny Garcia
- Firefighter Christian Rohner
- Battalion Chief Steven Rodriguez
- Engineer Christopher Perry
- Firefighter Nicholas Currao
- Firefighter Brent Loewel
- Lt. Shawn Morris
- Engineer John Hart
- Lt. Rob Boisselle

Present for the ceremony from left to right: Firefighter/Engineer Alex Wagoner, Lt. John Vosburgh, Inspector David Jones, Firefighter Felipe Lamay, Firefighter/Engineer Kenny Garcia and Fire Chief James Cunningham

The North Collier Fire Rescue Board of Fire Commissioners and Fire Chief James Cunningham recognized Captain Mark Bush for his 25 years of dedicated service to the District at the May 12, 2016 Board of Fire Commissioners Meeting.

PHOENIX AWARDS

May 19, 2016: Collier County Emergency Medical Services Department held a special ceremony for emergency response personnel who responded to and contributed to the successful resuscitation of a cardiac arrest victim. The Phoenix Awards ceremony was held at the Emergency Services Center in Naples.

Named after the mythological bird that died and rose renewed from the ashes, the Phoenix Award is given to first responders who brought back to life, through their highly trained efforts, patients who were clinically dead, with no heartbeat or breathing.

More than 75 emergency response personnel from Collier County EMS, the Collier County Sheriff's Office and the county's fire departments received an award for the 11 patients resuscitated over a six month period. North Collier Fire personnel receiving a Phoenix Award included EN David Jones, FF Nick Currao, FF Alex Wagoner, LT Shawn Morris, Eng John Hart, LT John Adams, LT Robert Boisselle, FF Kenny Garcia, FF Felipe Lamay, FF Brent Loewel, EN Chris Perry, BC Steve Rodriguez, FF Austin Sasaki, LT John Vosburgh and CA Brian Wertz.

Present for award ceremony from left to right: Deputy Chief Rita Greenberg, EN John Hart, FF Alex Wagoner, FF Nick Currao, EN David Jones, FF Christian Rohner and LT Shawn Morris.

Unit Citations

At the June 16, 2016 Board of Fire Commissioners' Meeting, Chief Cunningham recognized the following with Unit Citation Awards:

- Engineer Ryan Clark
- Acting Lt. John Hise
- Lt. James Hammond
- Battalion Chief Marvin Steffen
- Firefighter Jeff Simonson
- Engineer Josh Morgan
- Engineer Jack Najjar

From left to right: Chief Cunningham, Eng. Ryan Clark, Act Lt. John Hise, Lt. James Hammond, BC Marvin Steffen, FF Simonson

EDUCATION OPPORTUNITY

Looking to expand your knowledge of safety education? Let North Collier Fire Rescue assist. Education opportunities include:

- Fire Extinguisher Training
- CPR & First Aid
- Crowd Manager Certification
- High Rise Emergency Response Plans
- Community Emergency Response Teams (CERT)
- How to React in an Incidence of Mass Violence

Contact Community Outreach Specialist Carolyn Rambosk now at crambosk@northcollierfire.com to learn more about educational opportunities offered by North Collier Fire Rescue.

FEED THE FIRE!

Attention HOA Members: We want your feedback!

North Collier Fire Rescue personnel, including Fire Chief James Cunningham, would like to attend your HOA meeting to present an overview of our District and to receive your feedback on how we're doing.

Contact Community Outreach Specialist Carolyn Rambosk at crambosk@northcollierfire.com now to schedule our visit!

HAZARDS IN YOUR HOME?

What can a Home Hazards Survey do for you?

It can target fire hazards of which you may not be aware. The Hazards Survey includes emphasis on electrical hazards, heating and cooking, smoke alarms, fire escape plans, fire extinguishers, utility shut/off and proper use of gas. There is no charge for this service. Let us help you to safeguard your family from the threat of fire.

Contact Donna Smith to schedule your home hazards survey at dsmith@northcollierfire.com!

PREVENTING CARBON MONOXIDE POISONING FROM GENERATORS

Did you know that each year many people die from carbon monoxide poisoning from generators?

Portable generators are used during many kinds of power outages including after hurricanes. The exhaust from portable generators produces carbon monoxide, a by-product that is colorless and odorless. Carbon monoxide poisoning from generators is such a health threat, warning labels are required to warn consumers that **using a generator indoors CAN KILL YOU IN MINUTES.**

SYMPTOMS

- Headache • Dizziness • Irritability • Confusion/ Memory Loss • Nausea and Vomiting
- Disorientation • Abnormal Reflexes • Difficulty in Coordination • Difficulty in Breathing • Chest Pain
- Cerebral Edema • Convulsions/Seizures • Coma
- Death

GENERATOR PLACEMENT

- NEVER use a generator inside a home, garage, porch/ patio, crawlspace, shed or similar area, even when using fans or opening doors and windows for ventilation.
- Follow the instructions that come with your generator.
- Locate the unit outdoors and place a minimum of 15 feet from any opening such as windows, patio doors, and open garage doors.
- Ensure the wind is not blowing generator fumes towards any open windows. Be cautious of blowing gas fumes toward your neighbors' open windows and thus creating a hazardous situation for them.
- Turn off generator and allow to cool before re-fueling.
- Use the proper size electrical cords with no cuts or frays. Do not pinch the cords in doors or windows.

TREATMENT

1. Go to a safe area that is not affected by fumes and dial 911 immediately.
2. Wait for assistance.
3. Do not re-enter the affected area.

UPCOMING EVENTS

July 20, 2016

Crowd Manager Class Station 45

1885 Veterans Park Drive, Naples, FL 34109

The Florida Fire Prevention Code requires that all places of assembly (50 or more persons), including tented events, must have at least one (1) crowd manager or crowd manager supervisor. Crowd managers ensure that everyone entering an establishment stays safe.

Learn more at <http://bit.ly/29y0sDN>

July 23, 2016

Brotherhood Ride Sendoff Station 45

1885 Veterans Park Drive, Naples, FL 34109

Ceremony Begins at 7:45 a.m.

The Brotherhood Ride departs for Ocala and Ft. Walton Beach to honor fallen first responders. **Learn more at**

<http://bit.ly/292G2Rm>

August 13, 2016

Open House at Station 40

1441 Pine Ridge Road, Naples, FL 34109

1:00p.m. - 3:00 p.m.

Come meet your firefighters, tour the station, and view equipment demonstrations! **Learn more at <http://bit.ly/29bswfk>**

<http://bit.ly/29bswfk>

August 20, 2016

Annual Chase Hoover Memorial Blood Drive

Station 10 13240 Immokalee Road, Naples, FL 34120

10:00 a.m. – 2:00 p.m.

The Chase Hoover Memorial Blood Drive is held each August and honors Chase Hoover, the son of North Collier Firefighter Lt. Mike Hoover. Chase succumbed to Acute Lymphoblastic Leukemia (ALL) in 2011.

Learn more at <http://bit.ly/28ZSy6q>

September 12, 2016

New CERT Class Begins

North Collier Fire announces the scheduling of a new CERT course beginning September 12, 2016.

The course lasts 8 weeks and meets each Monday night. Classes average 2 hours each and are held at

North Collier Fire Station 45 located at 1885 Veterans Park Drive, Naples, FL 34109. There is no charge for the course. **Learn more at <http://bit.ly/295BlqA>**

<http://bit.ly/295BlqA>

NORTH COLLIER FIRE SUPPORTS SCOUTING

Many may not realize that North Collier Fire supports three local scouting troops, serving as the Charter Organization for:

- Cub Scout Pack 2001
- Boy Scout Troop 2001
- Venture Crew Troop 2001

Wednesday nights are busy at Station 45 off Veterans Park Drive where Boy Scout Troop 2001 meets weekly.

In this issue, we focus on Boy Scout Troop 2001, part of The Boy Scouts of America (BSA) national organization which focuses on helping young people build character, train in the responsibilities of participating citizenship and develop personal fitness. The Boy Scouts of America believes — and, through over a century of experience, knows — that helping youth is a key to building a more conscientious, responsible, and productive society.

Cub Scout Pack 2001 and Boy Scout Troop 2001 participate in the traditional Crossover Ceremony at Station 45. The ceremony marks where Cub Scouts transition into Boy Scouts.

Troop 2001 Facts:

- Troop 2001 which was created in 2001, includes 52 registered scouts and has graduated 49 Eagle Scouts over the last 15 years.
- Of the 52 scouts, 5 are new for the 2016 scouting year.
- 14 scouts spent three days in June hiking the Appalachian Trail in Georgia and then Camp Thunder located south of Atlanta for a week-long stay.
- 10 scouts will spend nearly two weeks in July experiencing adventure in Minnesota through the BSA Northern Tier expedition program.
- 13 scouts are currently working on the Trail to Eagle to gain Eagle Scout status of which only about 5% of all Boy Scouts achieve.

North Collier Fire is honored to support our local youth through the BSA program.

If you would like to learn more about the Boy Scouts of America, contact DeAnna Bickford, ASM Troop 2001 at DBick2003@yahoo.com or via cell at 239-777-6096.

WHAT DO ALL OF THESE FAMOUS INDIVIDUALS HAVE IN COMMON?

- John F. Kennedy
- Neil Armstrong
- Hank Aaron
- Michael Bloomberg
- Gerald Ford
- Steven Spielberg
- Sam Walton

They were all Eagle Scouts!
